## Center for Disaster Medicine

**Tuesday, June 23, 2020**

***During this COVID-19 pandemic and other future events, the CDM will continue to be a source of reliable information, education and models for mitigation, preparedness, response and recovery. As the pace of new information and changes has slowed and out of respect for the volume of everyone's communications, we will be decreasing the frequency of our newsletter to once per week.***

David Markenson, M.D., M.B.A.

Director

Center for Disaster Medicine

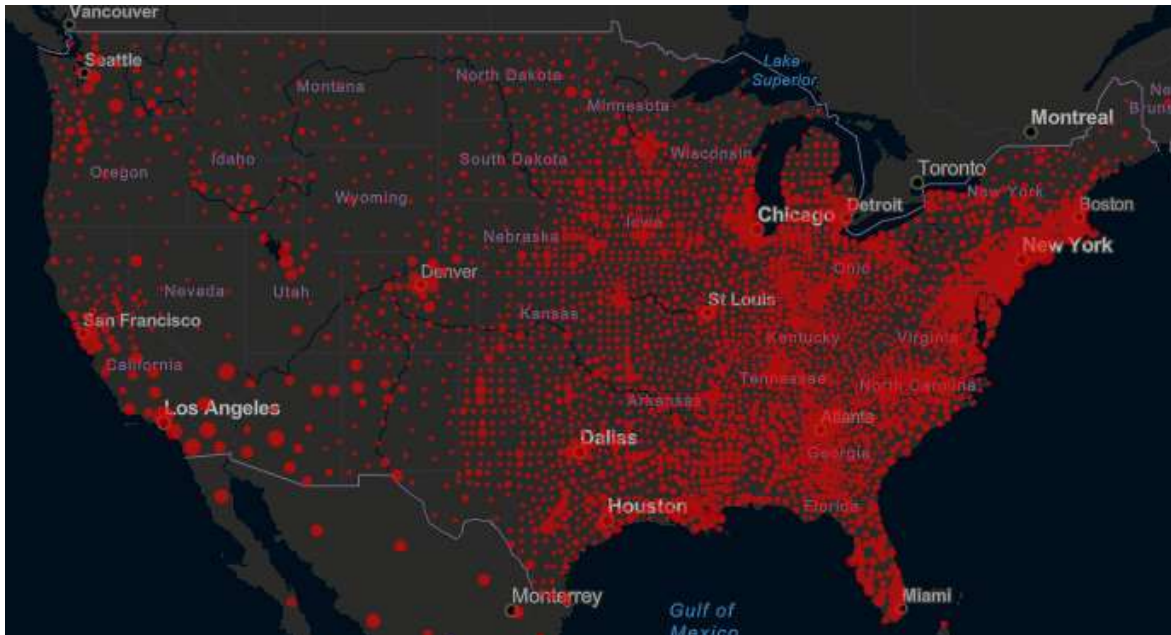

### COVID-19 Statistics

	Total Cases	Total Deaths	Total Recovered	Total Tested
Worldwide	9,073,386	471,591	4,511,603	No Data
United States	2,310,786	120,393	640,198	27,553,581
New Jersey	169,415	12,974	29,522	1,267,399
New York	388,488	31,176	69,710	3,452,099

Connecticut	45,782	4,263	7,842	397,552

Information as of 6/23/20 at 0000 EDT. Source: <https://coronavirus.jhu.edu/map.html>

### **United States COVID-19 Case Map / GIS**

### **Center for Disaster Medicine Updates**

- Coordinating volunteers to support local public health response to COVID-19.
- Conducting research and analysis of current events and COVID-19 response to identify strengths and areas for improvement in other regions.
- Updating and developing new programs to provide enhanced education on public health emergencies including pandemics.
- Redesigning summer fellowship in disaster and emergency medicine to better address preparedness skills, lessons learned and highlight the importance of high-fidelity simulation in medical education while finding new focus on pandemic-related research projects.
- Exploring course development opportunities in infection prevention and control for frontline responders in the hospital and in the field.
- Serving as a source of information for COVID-19 related concerns or questions regarding public health, emergency medical service (EMS), public safety and healthcare response.
- Local networking and pandemic response analysis for New York's tri-state area, using first-person experiences to highlight current trends.

## **Federal Updates**

- Due to the ongoing coronavirus (COVID-19) public health emergency response, FEMA will not conduct a national test of the Integrated Public Alert and Warning System (IPAWS) this year. FEMA is moving the next national test of the system to 2021 out of consideration for the unusual circumstances and working conditions for those in the broadcast and cable industry. Although systems remain in place for rapid automatic transmission of the test message by broadcast and cable operators, the follow-on reporting activities associated with a national test place additional burdens on technical staff that are already quite busy maintaining as close to normal operations as possible. <https://www.fema.gov/news-release/2020/06/19/fema-cancels-2020-integrated-public-alert-warning-system-national-test-due>
- The Department of Homeland Security (DHS) announced it will begin implementing a Trump Administration proclamation to protect American workers in the wake of unprecedented unemployment caused by COVID-19. The proclamation unveiled by President Trump directs the Department of Homeland Security to undertake a two-part approach to ensure employers put Americans first.
  - First, the proclamation uses presidential authority under Section 212(f) of the Immigration and Nationality Act to temporarily pause the issuance of certain new nonimmigrant visas until December 31, 2020, which could be extended as necessary.
  - Second, DHS is also directed to use all available tools to transition to a merit-based immigration system, ending often-exploited avenues for fraud and abuse. New provisions include non-displacement provisions, which prohibit companies from laying off American workers only to replace citizen employees with foreign nationals, and new efforts to prevent illegal aliens from obtaining work permits.

## **The White House**

- The President's 30 Days to Slow the Spread ended on April 30. President Trump has unveiled Guidelines for Opening Up America Again, a three-phased approach based on the advice of public health experts. These steps will help state and local officials when reopening their economies, getting people back to work, and continuing to protect American lives. ## **State Updates**

## New York

- Governor Andrew M. Cuomo announced he will issue an Executive Order strengthening state enforcement during the phased reopening to protect New Yorkers and ensure business compliance. Businesses that violate the reopening rules and guidelines are subject to immediate loss of their liquor license and a shutdown order. The Governor also announced he will issue an Executive Order to expand the enforcement areas of the State Liquor Authority by giving bars responsibility for the area immediately outside their locations.  
<https://www.governor.ny.gov/news/governor-cuomo-issues-executive-order-strengthening-state-enforcement-during-phased-reopening>
- New York City entered Phase Two of reopening on Monday, June 22; the Mid-Hudson region remains on track to enter Phase Three on Tuesday, June 23; Long Island is on track to enter Phase 3 of reopening Wednesday, June 24. The number of new cases, percentage of tests that were positive and many other helpful data points are available at [forward.ny.gov](https://forward.ny.gov).

## New Jersey

- Residents of long-term care facilities were able to have outdoor visits with loved ones in designated outdoor space starting Sunday, June 21, under a directive to long-term care facilities issued by the state Department of Health. The Health Department has received input and worked collaboratively with long-term care

providers on developing this directive to accommodate visitors. Prior to transporting a long-term care resident to a designated outdoor space, visitors must be screened for COVID-19 symptoms – including a temperature check – and facilities must follow safety and infection prevention and control measures in order to allow visitation.

[https://nj.gov/health/legal/covid19/6-19-20\\_ExecutiveDirectiveNo20-017\\_StandardsProtocolsVisitorsFacilityStaff.pdf](https://nj.gov/health/legal/covid19/6-19-20_ExecutiveDirectiveNo20-017_StandardsProtocolsVisitorsFacilityStaff.pdf)

- Governor Phil Murphy announced increased indoor and outdoor gathering capacity limits as COVID-19 cases in New Jersey continue to decline. Effective immediately, indoor gatherings are now limited to 25% capacity of the rooms in which they will take place, with a maximum of 100 persons. Outdoor gatherings are now limited to 250 persons, and outdoor religious services and political activities will continue to have no numerical limits. <https://nj.gov/infobank/eo/056murphy/pdf/EO-156.pdf>

## **Connecticut**

- The State of Connecticut has received an extension from the Federal Emergency Management Agency (FEMA) for approval to apply for reimbursement for statewide emergency feeding efforts until July 20. These vital efforts will continue to be coordinated by the Connecticut Department of Agriculture in partnership with the many state and local agencies and nonprofit providers, including community food banks. <https://portal.ct.gov/Office-of-the-Governor/News/Press-Releases/2020/06-2020/Governor-Lamont-Coronavirus-Update-June-19>
- Governor Ned Lamont announced his support for the Volunteer Income Tax Assistance (VITA) Program and its statewide expansion. The program provides free help for Connecticut's low-income and ALICE families to file tax returns, allowing them to receive tax credits and Coronavirus economic impact checks and to file for Pandemic Unemployment Assistance (PUA) benefits. All residents making up to \$56,000 in income are eligible for the services. Administered by the Connecticut Association for Human Services (CAHS), the virtual VITA program is the first IRS-approved end-to-end digital portal to carry out these services, allowing it to rapidly scale operations statewide.
